## Waterworks Debentures Sold at 97.30

Public Works Committee Will Clean Up the City. Reports  
of Committees. Petition to Extend Streets. Grant  
to Library Board. Mr. Levin Engaged as  
Assistant to Secretary-Treasurer.

The regular meeting of the city council was held on Tuesday evening with all the members in attendance. After the adoption of the minutes of the last regular meeting and special meetings, the city clerk reported for the month of April was read and adopted.

McNeil & Young wrote the gas debentures recently purchased at bid and offering 97.30 for \$70,000 waterworks debentures. Culler-Compton, that the offer be accepted.

H. W. Wright, manager of the Imperial Bank of Canada, advised the council that the rate of interest on loans will be 4 1/2 per cent until further notice. Gothard-Gross, that letter be received and filed.

W. Abbott wrote applying for an increase in salary. MacFadden, C. Compton, that same be referred to finance committee.

The annual report for the quarter ending March 31 was then received and filed.

E. Plink, C. P. R. agent, wrote re dumping refuse in the creek. Gr. Gothard, that letter be filed.

The report of Chief James of the month of April was then read, and ordered filed. There were 25 persons arrested or summoned during the month and the fees turned into the city were \$212.35.

A letter from the Canadian General Electric Co. re prices on electrical light and power committees.

Barnes & Satchell, Red Deer wrote asking permission to place bill board in city. MacFadden-Compton, that letter be received and filed.

The Acting Deputy Attorney General wrote re motor vehicle license. Gothard-Culler, that the Secretary-Treasurer be authorized to refund the amount due the government.

A. H. Livestock wrote re damage to his property on account of water. MacFadden-Wallace, that matter be referred to public works committee to consult with city collector.

The Edmonton Industrial Association wrote re publicly campaign. MacFadden-Compton, that the association be informed that the council cannot see its way clear to take part in the proposed scheme.

A petition was then presented signed by residents as to city collector, asking that C.P.R. be made a street opening a street or roadway, as an extension of Railway street east from Mill street to Kelly Street. Compton-Gothard, that the C.P.R. be written to with regard to making a road as outlined in petition.

A petition asking that Gould street be opened up from Strathcona avenue to the south, was then read. Gothard-Gross, that the same be referred to public works committee for report.

The petition asking that concrete walk be laid on Railway street east from Pearce to Mill streets was referred to public works committee.

The light and power committee reported verbally re presenting a petition. The matter was referred to chairman of light and power committee.

Gross - Culler, that Bargement Gross, Edmonton, be written to and the grade, and whether the defendant

had admitted responsibility for the accident. Evidence was given by the plaintiff, by the Rev. A. B. Argue, of Olds, who was with him in the buggy, by the defendant and his chauffeur, and by Constable Angerman, of the R.N.W.M.P.

Judgment was given for the plaintiff for \$195 and costs on the District Court scale, that amount consisting of \$10 for damages to the rig, \$25 doctor's bill, and \$70 for hire of a man to do plaintiff's work while laid up. The plaintiff also claimed for his time at the rate of \$30 an hour as a carpenter, but this was not allowed, his lordship holding that the one claim for time lost excluded the other.

Mr. Eaton, of Calgary, appeared for the plaintiff, and Mr. Moncrieff, of Wetaskiwin, for the defendant. J. J. Deer News.

EDMONTON SPRING RACES.

MAY 23, 24 and 25, 1914

A regiment of horses is stabled on the Edmonton Exhibition Grounds. A regiment of men are bending every energy toward fitting their horses for the Spring race meet, May 23, 24 and 25.

This track is in excellent condition. "I wouldn't be better, however, say a sprinkler has been secured from the city to keep the track and roads on the Exhibition Grounds in good shape and the constant use of a California harrow keeps a soft cushion on the surface of the track, just enough to insure easy travelling for the horses. Even the weather man has been kind to the trainers; spring has been ideal, rain practically never interfering with the training.

Distance has been no barrier to the occupants of the stables, Poemao and Vasco, two three-year-olds, arrived last week from London and join the string of J. P. Ferguson, Saskatchewan. Otto Riez is bringing running horse from Rares, Mexico.

New Brunswick, California, Spokane, Seattle, Portland, Idaho, Montana, Michigan, Saskatchewan, Calgary, Wetaskiwin, Vermilion, and Belton have all sent their representatives to join the local force.

Included in the string brought by "I wouldn't be better, however, say a sprinkler has been secured from the city to keep the track and roads on the Exhibition Grounds in good shape and the constant use of a California harrow keeps a soft cushion on the surface of the track, just enough to insure easy travelling for the horses. ## A SHOP EARLY AGREEMENT

The Local Council of Women has presented a liberally signed petition to the Retail Merchants' Association, Edmonton, saying: "We the undersigned women, being housewives in the city of Edmonton, agree not to do our shopping in person after six o'clock on Saturday evening and not to send to stores by letter, telephone or messenger after that hour with the object to secure closing at 9 o'clock on Saturday evening."

A special meeting of the city fathers was held at the council chamber on Friday evening last for the purpose of formally deciding on the location of the gas wells. All the members were in attendance.

The first question asked by His Worship was "Have the council the legal right to drill for gas at the fair grounds?" This caused a general discussion as to what rights the city had in regard to the grounds, and who were the owners. It was finally decided that the city had the fair ground in trust as a recreation ground, and it was thought that the council would have the right to sink the gas wells there, but to be certain of the matter the question was referred to the solicitor. A lease will be entered into with the agricultural society for the portion of the ground used. It was pointed out in the discussion that the council, having the gas rights of the district, could expropriate the land if necessary.

It was moved by Gothard-Gross that the first well be drilled at the present time. The motion was carried. It was also moved that a committee be appointed to inquire that there is no legal objection to the well being sunk there, and that a lease be obtained from the agricultural society as soon as possible. Objection was taken to the word "first" and the motion was defeated, those voting negative being Ald. MacFadden, Wallace, Culler and Compton.

All the members of the council were in favor of one of the wells being drilled at the fair ground, but were of the opinion that the matter of legal liability should be settled without a delay before any part of the rig is moved on to the ground and the work proceeded with.

A general discussion then followed, in which sites near the water tower, the location hospital, and the town hall were mentioned. It was decided that the approval of the board, it was finally moved by Culler-Gross, that one well be drilled at the northwest corner of the fair ground. If there is no legal objection to this being done, this motion was carried unanimously, and the location of the second well was held in abeyance.

The meeting then adjourned and the council resolved itself into committee of the whole to discuss matters that may be taken up at the regular meeting.

MISS M. B. MOORE  
Who obtained the degree of Master of Arts at the recent University of Alberta examinations.

PROVINCIAL NEWS

Calgary curriers will next year be currying on artificial turf and the season will start November 1, and continue until April 15. This is the new given out at a meeting of the curriers and the Currier's Association, the meeting having been called for the purpose of organizing a currier's union.

Colours in elementary agricultural and scientific gardening, anatomy, study, household science, manual training, fine arts and physical training are included in the summer school for teachers and inspectors. It is conducted by the University of Alberta, July 6 to August 8. Plans to hand provision for 150 teachers.

Edmonton, May 11.—The city electric light department is at the present time making an effort to show the citizens of Edmonton the advantages of electric lighting. It is conducting what may be described as an educational campaign in order that everyone may learn just what the electric method means.

Of course, there are many people who have already had a very satisfactory experience with electric lighting. It is apparent, both in Edmonton and other places, but it is felt that there are yet quite a large number who do not fully realize the many benefits to be gained.

There's one way the farmers can beat the free wheat game all hollow. If they can get the money, let them grow wheat and feed it to cattle and hogs. The cattle and hogs sell for the live line, thanks to President Wilson, and the wheat goes with them, though the customs officers can't swear to that—Lethbridge Herald.

Calgary, May 12.—No fewer than 3,380 hogs were shipped from Calgary to Seattle and Tacoma. This is the largest single shipment of hogs ever sent from this city to the United States, and represents a money value of \$50,700. It required a train composed of 25 cars to transport the animals. Of the shipment 780 were bound for Tacoma and 2,600 for Seattle.

Medicine Hat, May 10.—Hon. William Thomas Finlay, first minister of agriculture for Alberta, who died in Vancouver Saturday night, after a prolonged illness of hemorrhage for the brain, was born in Lethbridge, Ireland, on July 12, 1853, and was educated at the Royal Agricultural College, Belfast. He came to Canada in 1878, and came west from Toronto in 1882. A year later he settled in Medicine Hat, before the railroad had reached that town, and established a lumber business. His business prospered and Mr. Finlay shortly after entered public life.

Medicine Hat, Alta.—May 11 Mayor Brown has received a telegram from Helly Shaw, general manager of the Maple Leaf Milling Company, stating that the company's superintendent of construction, left Montreal on Saturday for Medicine Hat, to arrange for the immediate commencement of the Maple Leaf's new \$1,000,000 flour mill to be erected here.

BORN  
CRANE.—In Wetaskiwin, on the 12th inst., to Mr. and Mrs. W. L. Crane a son.

MOORE.—Near Millst on the 12th inst. to Mr. and Mrs. E. J. Moore, a daughter.

ALDRIDGE.—At the Parsonage, N. Edmonton, on Saturday, May 9, 1914, to Mr. and Mrs. A. H. Aldridge, a daughter.

Wm. McAllister, of Edmonton, passed through the city on Saturday last en route to Lethbridge on business and pleasure. He is now nearly sixty years of age.

The remains of the late Mr. Alexander McAllister, who passed away at the home of his daughter, Mrs. A. A. Goody, at Lethbridge, on Thursday, of last week, were sent to Lethbridge, on Thursday evening, to be interred there two years ago to make her home with her daughter. She leaves to mourn their loss two sons and four daughters, namely, Hugh, of Lethbridge; Rev. William H. of London, Ont.; Mrs. Thompson of Washington, D.C.; Mrs. Thompson of N. Y. Ont.; Mrs. Goodrich and Miss Cassie, of Lethbridge. The sympathy of the entire community is extended to the bereaved family.

## One Gas Well to Be Located on Exhibition Ground

Council Could Not Decide on Location of the Second  
Well on Friday Evening Last.

A special meeting of the city fathers was held at the council chamber on Friday evening last for the purpose of formally deciding on the location of the gas wells. All the members were in attendance.

The first question asked by His Worship was "Have the council the legal right to drill for gas at the fair grounds?" This caused a general discussion as to what rights the city had in regard to the grounds, and who were the owners. It was finally decided that the city had the fair ground in trust as a recreation ground, and it was thought that the council would have the right to sink the gas wells there, but to be certain of the matter the question was referred to the solicitor. A lease will be entered into with the agricultural society for the portion of the ground used. It was pointed out in the discussion that the council, having the gas rights of the district, could expropriate the land if necessary.

It was moved by Gothard-Gross that the first well be drilled at the present time. The motion was carried. It was also moved that a committee be appointed to inquire that there is no legal objection to the well being sunk there, and that a lease be obtained from the agricultural society as soon as possible. Objection was taken to the word "first" and the motion was defeated, those voting negative being Ald. MacFadden, Wallace, Culler and Compton.

## HAD INDIGESTION

For Over  
Ten Years.

Weakening the body will never remove dyspepsia or indigestion. On the contrary, all efforts should be made to maintain and increase the strength.

Burdock Blood Bitters will do this, and at the same time enable you to partake of all the wholesome food required without fear of any unpleasant after-effects.

Mr. Henry P. White, Sarnetteville, N.H., writes: "I have been troubled with indigestion for more than ten years; tried several doctors, and different medicines, but all without success."

Having heard of the many cures effected by Burdock Blood Bitters, I decided to give it a trial. I have taken one bottle, and I feel that I am cured at last. I can now do the same hard work I could before I was taken sick."

Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

H. L. HIGGS, Druggist, Wetaskiwin.

## MULHURST

You don't hear from us very often but when you do Fignon Lake new always counts.

The two newly wedded couples, Dad and Clark are snugly settled in their new home and look as happy as "the flowers in May."

Mrs. R. G. Halladay of Mulhurst, and Mrs. Burden of Hinton, were at Wattle yesterday attending Mrs. Wattle's broken arm.

The unfortunate accident happened on April 20, and first aid was rendered by Mrs. Halladay. She did a very good job of setting the bone as the arm is getting along as well as can be expected.

Mrs. Geo. Mulligan is on the sick list and is expected to go to Leduc this week to receive medical attention.

Grain in this district is an inch and a half high and looking fine.

Miss Lillian Watts and Mr. Arthur Halladay were at Mulhurst on Sunday.

The ice is just about all out of the lake and canoeing will soon be fine again.

Everyone is looking forward to the expected visit of Miss Lottie Kinschler in about a week at the Mulligan home.

Rowley's mill expected to be in operation on Monday the 11th.

## MILITARY NEWS

"C" Squadron 35th Central Alberta Horse held the first drill of the season on Friday evening of last week at which the two first troops under Lieutenants Elliott and Miquelon were each allotted their respective number of N.C.O.s and troopers.

Drill will hereafter be held on each Monday and Friday evening until the Squadron goes to camp at Calgary on June 15.

There are still vacancies for a number of troopers in the ranks of the local squadron and the young men of Wetaskiwin and the surrounding country should not fail to embrace this opportunity of obtaining an excellent military training as well as an splendid outing in camp next week.

Full particulars regarding the enlistment can be obtained upon application to Major Miller, any of the officers of the squadron.

## METHODIST CHURCH

The quarterly official board meeting of the M.C. church was convened on Monday, May 11. W. L. Bradley occupied the chair. A report from all the societies and all the appointments showed the work to be in a good condition.

On Tuesday evening the quarterly official board of the Wetaskiwin Methodist church met. There were reports from Ladies' Aid, Sunday School, and from the envelope steward and treasurer. Mrs. Crosby and Mr. Williamson presented these reports.

They showed the minister's salary paid up to date and considerable reduction on the church debt as well as with a small deficit on current expenses.

The first provincial basketball tournament will be held at Olds on Monday, May 24th, when about thirty basketball teams from all over the province will compete for the provincial championship. In addition to the basketball tournament, a program of athletic sports is being arranged for men and boys. Arrangements are being made to send the basketball teams from the Wetaskiwin high school, and the girls are practicing faithfully, being determined to make every effort to retain the championship of the province.

Camrose, May 13.—The enforcement of the Alberta Truancy Act was expedited here on a Thursday afternoon, when Alex Stiffura, a Russian, was fined \$10 before Magistrate Cornella for neglecting to send his two little girls to school. M. M. O'Brien, chief truant officer testified that the man had been notified twice. The girls were between seven and fourteen years of age, and lived only two miles from Foxman school. The only apparent reason for their not being in school was that they were put to work on the farm. Stiffura is a fairly prosperous farmer.

Information has reached this office that fifteen capitalists from a nearby city will leave in a special train for Western Canada, where it is their purpose to invest \$100,000,000 or more.

in municipal bonds and other staple securities. They expect to leave about May 15, and will spend considerable time in a close examination of Western Canada and its opportunities.—Chicago British American.

Calgary, May 13.—Chief of Police Cuddy is being sued by the local lodge of the Chinese Masonic order for failing the premises of the celestial missions on the theory that the place was being conducted as a gambling house. They assert that the chief should have asked permission to enter before he broke down the doors, and ask for \$1,000 damages.

## LOVERS.

When we see a youth and maiden through a flood of moonlight wading as they vow a love eternal, how with their sympathies, and we wish them countless blessings, with no end to their carousings, hoping they may ever travel under sunny, cloudless skies, then the cold world merely sits. Love is for the young, a blooming and they'll always find in blooming wedding rings and orange your mad and mellow moonlight, ere

and rice; every youth should haste the winter of existence brings the shadow and the cold; for there's naught on earth that's sadder than to see an ancient ladder totting round a shell-worn widow, courting like a tiny-year old—Walt Mason.

The Criterion Hotel is being thoroughly renovated, every room in the building being either newly papered or painted. Some alterations are also taking place.

Was Troubled With Weak Back.

Weak back is caused by weak kidneys, and it is hard for a woman to look after her household duties when she is suffering from a weak and aching back, for no woman can be strong and well when the kidneys are out of order.

Don't's Kidney Pills go right to the seat of the trouble, cure the weak, aching back, and prevent any and all of the various kidney troubles which are liable to become deep rooted into the system if not attended to at once.

Sam. Augustus Jones, Demerestville, Ont., writes: "For several years I have been troubled with weak back, my kidneys, had terrible dizzy headaches, and could not sleep at night. A friend of mine asked me to try Don't's Kidney Pills, and I did so, and in a short time was cured."

Don't's Kidney Pills are 50c. per box, 3 boxes for \$1.25, at all druggists, or mailed direct on receipt of price by "The T. Milburn Co., Limited, Toronto, Ont."

One will please set will case. Sold by all druggists, or mailed in plain package on receipt of price. New pamphlet mailed free. THE WORD MEDICINE CO., TORONTO, Ont. (Formerly Watson)

## POTATO DISEASES

There has been issued by the Department of Agriculture at Ottawa a remarkably well executed folder, Farmers Circular No. 4, entitled 'Potato Diseases transmitted by the use of unclean tubers,' showing in natural colors, representations of specimens of diseased potatoes. Diseases and other blemishes represented are potato canker, powdery scab, hollow potato, internal brown streak, dry rot, wet rot, common potato scab, and stem end rot. Special reference is made to potato canker and powdery scab, the latter of which occurs already in Canada and should be carefully avoided. The folder points out that, under the destructive Insect and Pest Act, any person using for seed potatoes infected by potato canker or powdery scab is liable to prosecution. Potato growers who suspect the presence of either of the latter diseases are requested to send specimens to the Dominion Botanist, Central Experimental Farm, Ottawa. This folder, prepared by Mr. H. T. Gussow, Dominion Botanist, will be sent free to those who apply for it to the Publications Branch of the Department of Agriculture at Ottawa.

SOME men, sometimes, can board the flying street car or "monkey with the buzz-saw" in a mill or factory, and get away with it. But that's how accidents happen.—Some men, sometimes, can shave with an open blade razor and avoid cutting themselves. But thousands agree that the chances are against it.

## Gillette Safety Razor

THE Gillette was the practical forerunner of today's "Safety First" movement. What engineers are doing now to safeguard tools and transportation, King C. Gillette did ten years ago for that much used tool, the razor. And while he made the razor safe, he also made it keener, harder and handier than the old open blade.

That thin, electrically tempered blade, gripped rigid in the adjustable holder, gives the cleanest, smoothest and quickest, as well as the safest shave man has ever enjoyed.

Standard Sets cost \$5.00.—Pocket Editions \$5.00 to \$6.00.—Combination Sets \$6.50 up. At Hardware Dealers, Druggists and Jewelers.

Office and Factory: The New Gillette Building • Montreal

## CITY OF THE FUTURE.

Town Planning Is Canada's Next Great Step.

Canada is waking up to the immense importance of the city planning and housing question. One of the most significant features of the day is the assembling of the great National Canadian Congress on City Planning at Winnipeg. It is the first gathering of the kind ever held in the Dominion.

Canada's interest in city planning has gone ahead in the last few years. The support of the former Governor-General, Earl Grey, was responsible for the visit of Mr. Henry Vivian, the chairman of the Co-partnership Tenants' Ltd. of England, in 1910. Mr. Vivian pointed out, in a tour of the country, that there was urgent necessity to plan the cities on well-defined lines, leading to the health of the community and the beauty of the localities. No single man has done more towards the solution of the housing problem in England than Mr. Vivian, and he brought his own expert knowledge under the notice of the Canadian public who view the city as something more than a place to make money.

Mr. Raymond Owen, the greatest of English town planners, visited Canada last year, and experts from the United States have also advised public and private authorities in Canada on questions of urban development on far-reaching lines.

The city of Winnipeg was the first in Canada to institute a City Planning Commission. That was done in 1910, and Mr. F. J. Cole, who has a good fund of European experience behind him, was appointed secretary. This commission was appointed by special charter for the sole purpose of studying the growth of Winnipeg and making plans for its future. It consists of twenty-four prominent public men, and its work has already been productive of much good.

Calgary, Alberta, has followed the example of Winnipeg, and last December, formed its City Planning Commission. Mr. G. W. Lemon has been selected as secretary, and the commission has been very energetic in its work, going closely into the questions of street improvements, street lighting and a civic centre.

Quebec has gone in for the appropriate laying out of the battlefields, a federal square, and Ottawa is planning concerning the Parliament Buildings and their relation to the surroundings. Vancouver has retained Mr. Thomas Mansel of England for the design of a city parks system.

The Grand Trunk Railway has laid out its Pacific terminals, Prince Rupert, on the Pacific line, as also the Canadian Northern Railway has laid out its Western terminals, Fort Mann.

This latter railway has in addition acquired land behind Mount Royal, Montreal, and commissioned Mr. Frederick G. Tuck, landscape architect, of Montreal, to lay it out as a model city.

The movement towards the cultivation of a progressive civic spirit is also taking root, and in several cities proposals are on foot for the creation of garden suburbs on the lines which have been so conspicuously successful in England.

Canada is face to face with a big problem. Try as one may it is impossible to stem the tide of immigration. The lure of the west is as much to the new cities as to the land, and it is essential that these cities should start aright.

City planning is not a fad, but a necessity of the time, and for that reason being an extravagance, it is a positive economy. It is the first asset of a city, because the commissioning of it with ability will once make for its well-being as a thoroughly equipped sphere of communal property and of individual happiness. It is an attempt to put the city on a first-class business basis.—Guy W. Hayler, M.R.S.I., in Canadian Courier.

Child Has Four Great-grandmothers. There are few children who can boast that they have two grandmothers and four great-grandmothers living, but this distinction can be claimed by Alice, the seven-months-old daughter of Mr. and Mrs. Ray Humphrey, who live near Galt, Ont. The maiden name of the child's mother was Pearl Culham, and she was the daughter of Mr. and Mrs. Nelson Culham, Sheffield. The mother of Nelson Culham, Mrs. John Culham, New Sheffield, is living, as is also the mother of Mrs. Nelson Culham, who is Mrs. John Harvey of Brantford. The mother of the child's father is Mrs. James Humphrey, and her mother, Mrs. Emerson Clement, lives at Lynden, and Mrs. James Humphrey's mother, who is Mrs. John Humphrey of Troy, is in her ninety-third year.

An Expensive Job. It is commonly said in the Old Country that no man without a good private income can afford to be Governor-General of Canada—that the \$50,000 a year which His Majesty's representative receives from the Dominion by no means suffices to meet the expenditure incumbent on the occupant of that exalted post. Indeed, it has been said that financial considerations almost deterred Lord Dufferin, who was very far from being a rich man, from accepting the honorable, if not very onerous, post, when it was first offered to him. Be that as it may, it is certain that most of our Governors-General—notably Lord Lansdowne, Minto, and Aberdeen, and the Duke of Connaught—have been men of very large private resources.

Taking a Chance. "Is that picture one of the old masters you were telling me about?" asked Mr. Camrox. "Yes," replied the art dealer. "It is a genuine treasure—absolutely authentic."

"I'll buy it. I already have three just like it, and somewhere in the bunch I'm liable to hit the original."

Juvenile Courts. In one year 73,000 offenders have been brought before the juvenile courts of England.

PRINCE ALEXANDER OF TECK FOR GOVERNOR GENERAL

London, May 7.—The official announcement of the appointment of Prince Alexander of Teck, to be the Governor General of Canada, came as a surprise to most Anglo-Canadians, though his name had been mentioned as among the possible successors to the Duke of Connaught.

The appointment of the Queen's

brother to succeed the King's uncle is regarded as a great compliment to the Dominion, giving additional proof that it was necessary that the court, as well as the government, generally regard Canada as the leading state in the empire.

The Monetary Times has been conducting a special enquiry into business conditions in Western Canada, and declares prospects bright for a successful year.

Monday marked the 10th anniversary of American occupation of the Panama canal zone. It was May 14th, 1904, that the engineer corps of the United States army took over the city and property of the French Canal company. Before another anniversary rolls round, unless something unforeseen happens to prevent, the great canal linking the Atlantic and Pacific will be in operation.

Charlie Lee, near Ponoka, has suffered severely through prairie fire, Sunday week a fire came up from the west and destroyed two granaries, burning his seed grain, a damage of about \$500. Mr. Lee was away from home at the time, and in his hurry to get back, killed a fine mare.

Ottawa, May 11.—According to a statement issued by the post office department, the number of rural mail routes actually in operation at the present time is about 2800 and the number of boxes erected on these routes 56,000. The number of post offices closed in Ontario, owing to the establishment of rural mail delivery since the establishment of the rural mail delivery branch on Nov. 1st of April, 1912, is 587, and the number closed during last month alone is 46.

## UNRESERVED Auction Sale

STOCK, IMPLEMENTS, HOUSEHOLD EFFECTS.

The undersigned Auctioneer has received instructions to sell by public auction on the E 127-46-24, W. of 4th 15 mile west of Wetaskiwin on THURSDAY, MAY 28th, 1914, at 1 o'clock sharp, the following properties:

## FREE OF ALL THREE DISEASES

"Fruit-a-lives" Brought Him Perfect Health

AVON, Ont., May 14th, 1913. "I am younger since I have been taking 'Fruit-a-lives'. I was troubled very badly with Piles, Constipation and Stomach Disorder, but I found 'Fruit-a-lives' was the answer for the whole three."

Now I am free of all these diseases and enjoying perfect health, and able to work whenever I like. Five years ago, I started taking 'Fruit-a-lives'. I took two every night and they worked wonders for me.

No other medicine I could get was so good and I took lots of different remedies before I found out how good 'Fruit-a-lives' were.

I keep 'Fruit-a-lives' on hand all the time, and am never without them. I even take them with me when I go motoring, so I can have them handy. 'Fruit-a-lives' are worthy of every good word I can say about them. The fact that they cured me of Piles, was something to be everlastingly thankful for."

See a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

Less Expense—More Profit

The GasPull makes money for you by increasing your crops as well as by cutting operating costs. It doesn't require an expensive shelter and costs nothing when not running.

RUMELY GASPULL LA PORTE 15-30 horsepower

Always ready for work, no matter what the weather. It never gets sick and never dies. It does the work of six to sixteen horses and does it quicker, better and cheaper.

The GasPull will pull up to 6-plow bottoms through sod or stubble, and only one man is needed to manage engine and plows. It is light and handy—particularly good for drilling, discing, summer-fallowing and harvesting.

It will build roads and haul crops to market. It furnishes reliable smooth-running power for all sorts of belt work—such as running threshers, balers, husker-shredders, silage cutters and saw mills.

Rumely service is back of every Rumely machine—49 branches and 11,000 dealers—supplies and repairs on short notice. Ask for GasPull catalog No. 352 and the name of our nearest dealer.

## HIS BLADDER WAS TERRIBLY INFLAMED

GIN PILLS Brought Relief

Lander Lake, Ont., March 26th.  
"I had been suffering for some time with my kidneys and urine. I was constantly passing water, which was very scanty, sometimes as many as thirty times a day. Each time the pain was something awful, and I felt as if I had a knife in my back."

In two days, the pain had left me entirely. I took about half a box and today I feel as well as ever and my kidneys are acting quite natural again."

SID CASTLEMAN.  
GIN PILLS soothe the irritated bladder—less the sick, weak, painful kidneys—and strengthen both these vital organs. Money-back if they fail. 50c a box, 6 for \$2.50. Sample free if you write National Drug and Chemical Co., of Canada, Limited, Toronto. 179

## ZAM-BUK

MRS. A. SAICH, of Cannington Manor, Sask., writes: "My brother-in-law suffered severely from eczema. The sores were very extensive, and burned like coals into his flesh. Zam-Buk took out all the fire, and quickly gave him ease. Within three weeks of commencing with Zam-Buk treatment, every sore had been cured."

This is but one of the many letters we are constantly receiving from people who have proved the healing power of Zam-Buk. For eczema, piles, sores, burns, cuts and all skin troubles there is nothing like this wonderful balm. No skin disease should be considered incurable until Zam-Buk has been tried.

unrestricted markets not only for our wheat but for all our other products, what is to be the result?

"NOTHING DOING!"

Ask the eastern manufacturer what is the result of the idea of reciprocity. If he is honest, he will tell you that it is more stagnant in Eastern Canada than it has been for twenty years. When I was in Montreal the other day I had a conversation with a number of wholesale men there, one of whom said to me, "We have not had such poor business for twenty years as we have today."

He did not know that I was in politics. I said, "Can it be by any possibility be true that this stagnation has resulted from the change of government?"

He said, "I never thought of it that way, but that seems to be the case, the only place where we can sell our goods is in the city of Ottawa."

I said, "How do you account for that?"

He said, "The same parliament is in session, and so many delegates come to Ottawa who buy goods. That is the only reason I can give for it."

The hon. member who preceded me (Mr. Laker), is a manufacturer, and a good one. He has one of the best knitting mills not only in Canada, but of his line, in the world, and for the goods he produces I believe he is capable of producing them as well as any manufacturer in the world.

He is one of the gentlemen who did his best to bring about this state of affairs.

PRICES OF FLOUR

An allusion was made by the hon. member for Haldimand to an article which appeared in the Montreal Standard in regard to the price of flour at Canadian points and English points.

I was one of the gentlemen who received a copy of that paper, and I presume every member received one. I noticed a mistake in the statement, but I thought it was a typographical error. I took the pains to write to the Editor of the "Standard" and inform him of the error.

He was correctly informed or not I received a letter signed by the man who made the statement, and addressed it to the editor of the "Standard," he says:

"Your letter of the 8th instant has been handed to me with copy of the article addressed to you by Mr. Douglas, M.P., in which that gentleman states the alleged discrimination against Canadian commerce has been made that the undermentioned figures prove that I underestimated same. Such figures as the difference between the figures I quoted to be a fair average."

Writing as his authority the North West Miller, he figures out the price at Montreal at \$5.70 a barrel, the price in Liverpool at \$5.25 per barrel, and the price in London at \$3.95 a barrel for September, October and November of last year. We have heard a great deal of the difference between the relative benefits of protection and free trade. Hon. gentlemen opposite have evidently taken it very much exaggerated. I am sure they have advocated the abolition of duties on a number of articles that they are absolute free traders. For each such party, I am sure they were inclined to let them have that opinion, but I do not think they are

doing justice to the Liberal party when they make such statements. I do not think the lowering or abolition of a duty on any specific article means that the party which advocates such a policy is absolutely going in for free trade. If that were true, then the Conservative party is just as much a free trade party as is the Liberal party, because I notice that the Conservative party has taken the duty of a good many articles, although the unfortunate part of it is that the articles on which the duty has been removed are all used by manufacturers and not by the consuming classes.

It has been claimed by hon. gentlemen that the binder twine industry in Canada was ruined by the Liberal party removing the twine duty in 1897. I have some figures here to show that that statement is absolutely incorrect. The hon. member for the Yukon (Mr. Thompson) quoted from a speech made last year by the hon. member for Wentworth (Mr. G. C. Wilson), the statement that four out of fifteen factories in the Canadian side had gone out of business when the duty was removed. A gentleman who is thoroughly acquainted with the binder twine industry in this country, informs me that in the days of high tariff on binder twine, the twine duty was closed by the twine trust in Canada, then since the Liberal government lowered and finally put the twine duty on a par with the twine duty in the United States, the factories closed by the twine trust were: Brown of Quebec; Bannerman, of Lehigh; the Port Hope mills; the Dovercourt mills in Toronto; the St. John mills in New Brunswick; and one of the Brantford mills. These mills, as I say, were all closed under the protective tariff on binder twine. In fact, the industry was ruined by the twine trust in Canada. The twine industry in Ontario government started manufacturing twine in the Central Prison, and the Dominion government followed by manufacturing twine in the Kingston penitentiary, in an endeavor to break the combine of the Canadian twine trust. The twine industry in Ontario government started manufacturing twine in the Central Prison, and the Dominion government followed by manufacturing twine in the Kingston penitentiary, in an endeavor to break the combine of the Canadian twine trust. The twine industry in Ontario government started manufacturing twine in the Central Prison, and the Dominion government followed by manufacturing twine in the Kingston penitentiary, in an endeavor to break the combine of the Canadian twine trust.

One of the important features of the sixth annual exhibition of the Camrose Agricultural Society, which the fair will be held on August 20 and 21 over four weeks earlier than the date of last year. The early date will no doubt make a great difference to the exhibitors, but it is believed that the change will be best for all parties concerned.

Some seedling records this spring are being made by the twine trust. One of the New Norway district with 300 acres in a grain crop and J. B. Gordon, west of Camrose, who has been sold 180 acres this year.

A special meeting of the town council was held on Wednesday afternoon when the contract was let to Chas. Grey for the labor in connection with the trenching for the sewer and water extensions, the installing of manholes and the erecting of hydrants. The depth of the trench varies from 3 feet to 10 feet 6 inches, according to the depth of the street. Mr. Gray's tender amounted, varies from \$1.35 to \$1.40 per lineal foot. The other tender received was that of Thos. Shies, whose prices were from \$1.35 to \$1.52 per lineal foot.

Yes.

Whatver sends customers to your shop and increases their ability to buy promotes your interests, doesn't it?

"Certainly."

"Whatver makes men content to wear old, worn-out hats, does you an injury."

"Yes."

"Well, sir, and you I were to walk along the business streets of this city, I would see scores of men wearing on their heads shabby old hats that they ought years ago to have been thrown into the fire. Now, why don't these men come and buy hats of you?"

"That is not a difficult question to answer; they are too poor to buy a hat."

"What has more influence than a man in employing a good tailor, and not only that, but in buying their self-respect, so that they are willing to wear old clothes?"

"No, no," said the man hastily. "Here is a donation for your cause. I am beaten"—Alliance News.

HORTICULTURE ON DOMINION EXPERIMENTAL FARMS

At the Central Experimental Farm at Ottawa and at each of the other branch farms and stations distributed over the Dominion a large amount of interesting work is carried out year by year in the growing of fruits, vegetables and flowers. The purpose

## Every Night —a Sunkist Orange

Every member of the family should eat Sunkist Oranges just before retiring at night. Eat them at meals and between meals. For no other fruit ever better insured good health.

Heavy with luscious juice, sweet and delicious. They are free-peeling and so tender-meated you can eat them whole without losing any juice.

Sunkist are tree-ripened, glove-picked, tissue-wrapped, and shipped right from the tree, so are always fresh and full flavored.

Will you buy merely "oranges," or will you get "Sunkist?"

Prices are low. Get a dozen now.

Sunkist Oranges, madam, are the equal of Sunkist Lemons in quality—practically seedless, juicy and richly flavored. Serve them with fish and meats—they are the best looking lemons. Try using their juice wherever you now use vinegar. See what you're missing by going without this Sunkist Brand.

steel rods on your industry?" and he said, "It is going to put me out of business." I replied that I read that it would. He then told me: "We heard a mention of that very thing last year, and I took it upon myself to write the minister of finance, to the prime minister, and to the member for Calgary, protesting to the utmost of my power against such a duty; the answer I got from all these gentlemen was that they would not consider it for a moment, that they felt that the effect would be to put the small mill makers out of business and that they could not do that."

He told me that the hon. member for Calgary was most emphatic in his statement that under no circumstances would he permit of a duty being imposed on steel rods, as he knew the effect it would have on the industry in Calgary. For that reason I am very sorry that the minister of finance was overborne by the arguments advanced by the steel manufacturers, but I hope he has it in his power to protect these small manufacturers in some way should the question arise. With the high transportation rates which we have to pay on heavy hardware, such as nails and other commodities which are made out of steel rods, it would be a serious handicap of the people of the country who use nails every day if the price was now increased.

CAMROSE.

## POSSIBILITIES OF ALBERTA CANNOT BE CONCEIVED

North Battleford, Sask., May 14.—"Western Canada is on the threshold of an era of agricultural, industrial and commercial development and advancement that will eclipse anything the world has ever witnessed," said W. J. Magrath, president of the Edmonton Industrial Association, at the first colonization and development convention for Western Canada here this afternoon. He added:

"We are making remarkable progress in all lines of endeavor and to successfully distribute this enormous wealth and derive the greatest benefit, it will be necessary to build more railroads, develop water transportation and power transmission facilities and establish more factories and mills. This will create more markets and the direct result will be mixed farming, the real source of wealth."

Comparing the province of Alberta with the other provinces of the Dominion, the status of the Union, or with the countries of western Europe there is no question that between agriculture and manufacturing it has the potential capacity to sustain 100 inhabitants to the square mile, and that would mean a population of 25,000,000. Populated as densely as Massachusetts, our province would have 123,600,000 inhabitants in cities, towns and country. The present population of all Canada is less than 8,500,000; Alberta has 435,000.

"Alberta has within its boundaries

fully 600,000,000 acres of fertile land available for development. This is exclusive of about 1,500,000 acres occupied by lakes, rivers and creeks, and 60,000,000 acres of mountains, hills and other lands not suitable for agriculture at present. We had under cultivation last year 2,799,267 acres, or less than 3 per cent of the available farming area, and from this our farmers produced 75,576,623 bushels of grain, in addition to live stock, hay, roots, vegetables and dairy products having a farm value of between \$14,000,000 and \$20,000,000. The increase in the average of 1913 over 1912 was 107.15, and the crop increase was 9,231,140 bushels.

"From official sources we learn that a larger area is being cultivated this year and it is predicted that a greater gain will follow, when our farmers will have devoted more attention to diversified farming, which may be interpreted to mean that the modern farmer is rapidly supplanting the bonanza wheat rancher in Alberta, and that the farm is being converted into a manufacturing enterprise, increasing the efficiency of the plant and eliminating all waste."

Regarding the manufacturing development of Alberta, Mr. Magrath said that prior to 1900 what are now the provinces of Alberta and Saskatchewan were grouped as to farms. In 1900, the two provinces had 105 manufacturing plants, employing 1,158 men and women and \$1,853,570 capital. In 1913, factories and stores amounted to 565,728, the value of the raw product was \$1,121,342, and the value of the finished product was placed at

\$1,964,947. Five years later or in 1905, Alberta alone had 120 manufacturing plants, employing \$5,645,831 capital and 2,045 men and women, who received \$1,571,107 in salaries and wages. The value of the finished product is given as \$5,116,782.

According to the last census bulletin, issued by the federal government, Alberta had 290 manufacturing establishments in 1910. These plants employed 6,203 men and women and \$29,518,246 capital; they paid \$4,345,641 in salaries and wages and \$9,998,836 for raw materials. The value of the products was \$18,785,336.

"What the future holds for Alberta in manufacturing and agriculture the brain of no man can grasp. We are facing a stupendous task. We know that railroads cannot be built fast enough to keep pace with the development of the western country; we know too, that if the railroads were equal to our increasing needs it would change the economic equilibrium of Canada itself. The railroad yards are the real harbors of the prairie provinces.

"Traffic experts report that the Panama canal will add ten cents to the value of every bushel of grain grown in Alberta and Saskatchewan. I believe also that our manufacturers will share equally in this increased dividend. But manufacturing, mining, lumbering and wheat growing are not the only money makers in this western country. Mixed farming and dairy and livestock will do more than all the rest put together for many years to come."

## House, Bedding and Vegetable Plants—Rose Bushes, Shrubs and Roots

Geraniums, \$2.50 to \$6.00 per doz. Pansies, 35c to 75c per doz. Ageratum, Astris, Candidum, Chrysanthemums, Mignonette, Nasturtiums, Poppy, Stocks, Sweet Peas, Zinnia, mixed. All the above in good strong plants, 30c per plant.

## THE SCOTT ACT FOR ALBERTA PROVINCE

Hon. J. C. Doherty has given notice in the house of commons of an act to amend the Canada Temperance Act, so that the Scott Act may be enforced in Alberta and Saskatchewan. The act may be enforced in the other provinces, except in British Columbia, where no provision for its enforcement is yet made, at the pleasure of the ratepayers as expressed at the polls.

The Scott Act permits of county prohibition and is in force in many counties in Canada. Before it could be applied to Alberta or Saskatchewan it would be necessary to create temperance districts as there are no counties in either of these provinces. It is not at all likely that any attempt will be made to pass the act in either of these provinces, however, as the temperance forces of the province will fight for provincial prohibition on a general provincial basis.

### SUMMER BRADING CAMPS.

At least two students from the University of Alberta will engage in work in connection with the "Brading Camp" Association this summer. The students who take up this work spend the vacation in some construction JUST ONE DOSE of Alder-ika remedy on the new railway lines which have construction and gas on the site are being extended north and west.

"They work with the men on the grade during the day, and in the evening conduct classes in various subjects, such as reading, arithmetic and literature. The reading camp Brading Camp Association supplies them with magazines and other reading matter for the use of the men."

### STILL IN DOUBT

A new turn in the landing of the Garriett Business College pupils for the "Tahiti" Shield will be noticed this week. Some of those who have been leading are dropping out and the result is still uncertain. Below are the names of the few highest for the week ending April 30:

Miss Edmonds 53  
Mr. Merner 62  
Mr. Francis 59  
Miss Sheddin 56  
Miss Ashberg 51

### LOCAL DRUGGIST MAKES MANY FRIENDS

T. F. Bell reports they are making many friends through the QUICK remedy which Wetaskiwin people receive from the simple mixture of buckthorn bark, glycerine, etc., known as Alder-ika. This remedy became famous by its effect when Wetaskiwin people received the thorough bowel cleaner, acting on both the lower and upper bowel the vacation in some construction JUST ONE DOSE of Alder-ika remedy on the new railway lines which have construction and gas on the site are being extended north and west.
